

# Louisiana Center for Eyes

## Contact Lens Agreement

We are pleased to provide contact lens for our patients. If worn correctly, contact lens can provide an excellent alternative to glasses. **We have a wide selection of lens types, daily wear, extended wear, opaque (colored) lens, toric (for astigmatism), rigid gas permeable (hard lens), multifocal and cosmetic colored lens.**

### **The Fitting:**

Contact lenses are like shoes, they must be fitted to each person's eye yearly. Before dispensing a contact lens each patient must have a fitting. It is also recommend that a complete medical eye examination is performed to assure good health of your eyes. Although many people will need only one fitting session per year, sometimes this process requires several appointments to get the right fit and visual acuity with the contact lens. **Fitting fees are \$120.00.**

You will be instructed in the proper care of your contact lens. If you are new to contact lenses, you will be taught how to insert and remove the lens.

### **Follow Up:**

There is no charge for follow-up visits during the first 60 days or first three follow up visits, whichever comes first.

### **Order:**

50% of the total price is required at the time the order is placed. The balance is due when the lenses are picked up. If lenses are not picked up within 60 days, the deposit is forfeited and lenses are restocked.

### **Refunds:**

There will be NO Refund on customs lens, opened boxes of lenses, or colored lenses. There will be no refund of the eye exam, fitting or annual contact lens examination fee.

### **Annual Contact Lens Exam:**

All patients are required to come in for an annual contact lens exam. This necessary to assure that your eyes are health and the contact lens are still fitting well.
